RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 88 pages. Original publisher: Maxwell Air Force Base, Ala. : Air University Press, 2003 OCLC Number: (OCoLC)54837621 Subject: Employee retention -- United States. Excerpt: . . . Chapter 1 Why the Air Force Needs Women This chapter answers the question: Why does the Air Force need women For some individuals, the answer is intuitively obvious and they might wonder why I pose the question. For others, the response is, It doesnt. This chapter is for the readers who fall somewhere between these two extremes and who cannot articulate exactly what women bring to the table, but who are pretty much convinced that an all-male force is not in the best interests of our nations defense. Demographics and diversity are the keys to understanding the title statement. Demographics, as presented below, demonstrate conclusively that the Air Force needs to recruit talent from every source and show that women will make up a larger portion of the available talent in the upcoming decade. This chapter also presents research on the benefits of diver-sity for an organization, that is, the benefits of including a mix of ethnicities and gender in the workplace. Does this research prove conclusively that all organizations are better off including minorities on their payrolls No. The research presents a con-vincing circumstantial case for the benefits of diversity, but avail-able scholarship lacks a mensuration capacity to bring empirical analysis to this subjective topic. I am aware of the bias within the Air Force, peopled as it is by engineers and pilots, for such quantifiable data as airspeed, number of safety mishaps, or per-centage of Air War College graduates promoted to colonel. How-ever, too many factors may have contributed to a companys rise in sales one quarter to definitively...
