Problems in Mathematical Analysis: Real Numbers, Sequences and Series: v. 1

By W. J. Kaczor, M. T. Nowak

American Mathematical Society. Paperback. Book Condition: new. BRAND NEW, Problems in Mathematical Analysis: Real Numbers, Sequences and Series: v. 1, W. J. Kaczor, M. T. Nowak, We learn by doing. We learn mathematics by doing problems. This book is the first volume of a series of books of problems in mathematical analysis. It is mainly intended for students studying the basic principles of analysis. However, given its organization, level, and selection of problems, it would also be an ideal choice for tutorial or problem-solving seminars, particularly those geared toward the Putnam exam. The volume is also suitable for self-study. Each section of the book begins with relatively simple exercises, yet may also contain quite challenging problems. Very often several consecutive exercises are concerned with different aspects of one mathematical problem or theorem. This presentation of material is designed to help student comprehension and to encourage them to ask their own questions and to start research. The collection of problems in the book is also intended to help teachers who wish to incorporate the problems into lectures. Solutions for all the problems are provided. The book covers three topics: real numbers, sequences, and series, and is divided into two parts: exercises and/or...
