Did you sell any wheat Any other grain Ifo, how much How much of your farm went with it To The Teacher: Require pupils to furnish data for other similar problems. 7. Legumes. From a study of the table on fertilizing substances in different soils and a comparison of this table with the one on fertilizing substances in farm crops, it will be seen that nitrogen is the element which, from ordinary soils and under ordinary conditions of farming, is likely to be the soonest exhausted. Ordinarily, then, the farmers attention should be turned to methods of restoring nitrogen. If a sufficient quantity of manure were produced on the farm, of course the...
