Brand New Book ***** Print on Demand *****.Be inspired by The Ethics (Ethica Ordine Geometrico Demonstrata) by Benedict de Spinoza. In the universe anything that happens comes from the essential nature of objects, or of God/Nature. According to Spinoza, reality is perfection. If circumstances are seen as unfortunate it is only because of our inadequate conception of reality. While components of the chain of cause and effect are not beyond the understanding of human reason, human grasp of the infinitely complex whole is limited because of the limits of science to empirically take account of the whole sequence. Spinoza also asserted that sense perception, though practical and useful for rhetoric, is inadequate for discovering universal truth; Spinoza s mathematical and logical approach to metaphysics, and therefore ethics, concluded that emotion is formed from inadequate understanding. His concept of conatus states that human beings natural inclination is to strive toward preserving an essential being and an assertion that virtue/human power is defined by success in this preservation of being by the guidance of reason as one s central ethical doctrine. According to Spinoza, the highest virtue is the intellectual love or knowledge of God/Nature/Universe. And leverage AmAre as an approach to cultivate acceptance and joyful living for the benefit of all beings. This book is based on A course in happiness. In Italian, AmAre means to love ; in English, interconnectedness: (I)Am (we) are. AmAre stands for being: A - Aware and Accepting M - Meaningful and Motivated A - Active and Attentive R - Resilient and Respectful E - Eating properly and Exercising For more information about AmAre, please visit //.
